

Internet Pirates

Ghost Town

Came straight from my bed
The sun set an hour ago
Text everyone on my phone
"Are you ready to go?" Blacked out back alley
Second door on the right
Knock three times
If they open up you did it right It's the thrills with the chills that we all long for
Oh I'd kill for the skills from the folk lore Take my hand...
Weekend, my friends, I can't wait to give in
Take a stand...
Fist fights, riots, internet pirates
And then
Dance with me...
Earthquakes, heartbreak, last night's mistakes
I will
Make you see...
Mayhem, madness, infinite sadness Let's make up for the parties and yesterdays
Let's make up for the good times we pissed away It's the thrills with the chills that we all long for
Oh I'd kill for the skills from the folk lore Take my hand...
Weekend, my friends, I can't wait to give in
Take a stand...
Fist fights, riots, internet pirates
And then
Dance with me...
Earthquakes, heartbreak, last night's mistakes
I will
Make you see...
Mayhem, madness, infinite sadness Take my hand...
Take a stand...
And then dance with me
I will make you see
YEAAAAAAAA!!!!!! Take my hand...
Weekend, my friends, can't wait to give in
Take a stand...
Fist fights, riots, internet pirates
And then
Dance with me...
Earthquakes, heartbreak, last night's mistakes
I will

Make you see...
Mayhem, madness, infinite sadnessDance with me...
Earthquakes, heartbreak, last night's mistakes
I will
Make you see...
Mayhem, madness, infinite sadness
