

# Anytime Now

## Sizzla

Selassie is the almighty I  
Look at me my love  
My meditation going like a dove  
Stop alla keep failing  
To fulfill the black people words, hey  
King Selassie I me hailing  
Anna dem go trouble poor people first  
Anytime now Babylon dem a go get a red  
'Fraid, Babylon a get 'fraid  
Anytime now di prisoners dem a go escape  
Slave master place a go blaze  
Anytime now police dem a go get a red  
'Fraid, government a get 'fraid  
Anytime now Babylon, yuh must get a red  
Nuff cutchi man nuff a dem run go shave  
Woi, I'd rather to be with the people I lead  
Give dem my daily strength and showing dem my daily need  
And I'd rather to see more love than grief  
That's the only way di ghetto youths a go achieve  
And I rather to be with the people in need  
Babylon system only come yah so fi deceive  
I rather to listen a nah to word receive  
Dem a go cut di woman breast and bust di man dem seed  
Mussa perish, long time me see it  
Black people back up an yard inna di east  
Tell di Indian say fi go look fi dem chief  
Tell di white man from a Europe, go island seek  
Hey, Rastaman no got no secret a keep  
There will be a weeping an a wailing an a gnashing of teeth  
[Incomprehensible]  
Come out inna di clear, behind wall dem a peep  
Nothing fi di white man, black man nah do it  
Black woman, stop sweep di white woman street  
Di ghetto youths go study Babylon technique  
A so me see say Vatican get defeat  
Anytime now Babylon dem a go get a red  
'Fraid, Babylon a get 'fraid  
Anytime now yah, redder fire deh go blaze  
Stop treat people like slave  
Anytime now di prisoners dem a go escape  
Too long dem deh in deh yah bake  
Anytime now Babylon dem a go get a red  
Man haffi go repatriate  
Dem make dem satellite and dem launch it a space  
Mash up di o-zone layer Babylon a fake  
Sun a burn redder and it a strip dem face  
Could deh dem look like all [Incomprehensible] weh dey bake  
Watch a make di Rastaman deal wid dem case  
Ask dem dis question before it too late  
Babylon, a why yuh dump your toxic waste?  
You no see say dat yuh make a big mistake  
Now tell me who end up like bait

Dem hold down black people  
To send white people through di gate  
Woi, Rastaman a agitate  
Revolution, caw we must repatriateAnytime now Babylon dem a go get a red  
'Fraid di government a get 'fraid  
Anytime now Babylon dem a go get a red  
Dem separate we and still wan' enslaveAnytime now Babylon dem a go get a red  
And Mister Babylon, you nah save  
Anytime now Babylon dem a go get a red  
Because di prisoners dem a go escapeDi whole a dem a dis di I-ncient of days  
Got inna di Atlantic ocean gone fire dem lace  
Fi make di iceburg, fi return di ice age  
Di west a go sink when di water table raiseBabylon you stink, an yuh wan bad  
Yo no badda think di youth a tell you dis brave  
I black mother nah be your maid  
Work me black father and dem never get paidOh, Babylon so much a we a come a enslave  
I build di building, di road dem we pave  
See dem now, see dem now, see dem now  
From yuh dis your own a judgement you madeAnytime now Babylon dem a go get a red  
'Fraid, Babylon a get 'fraid  
Anytime now di prisoners dem a go escape  
Slave master place a go blazeAnytime now police dem a go get a red  
'Fraid, government a get 'fraid  
Anytime now Babylon, yuh must get a red
