If I Could Write Poetry

Television Personalities

All those times we spent together
All the love I had I gave to you
Sitting on a park bench in the autumn
Holding hands under a cloudless sky
Happiness is knowing you care for someone
And never having to give a reasons why
For love is never having to say anything
My love is yours to keep till the day you dieIf I could write poetry
I would write a thousand poems
To tell the world that I love youDreaming we would always be together
Chasing rainbows in a happy sky
Thinking we would always be together
But now I find there's no tears left to cry
If I could catch a falling star I'd give it to you
Even though it's never been done before
And now I'm on a park bench in the autumn
I watch the rainbow disappear from viewIf I could write poetry
I would write a thousand poems
To tell the world that I love youThinking all the time we spent together
All the love I had I gave to you
Sitting on a park bench in the autumn
Holding hands under a cloudless sky
Dreaming we would always be together
Thinking we would always be together
Hoping we would always be together
But the rainbow disappeared from viewIf I could write poetry
I would write a thousand poems
To tell the world that I love you
