

# Rainbows

## Far From Alaska

Baby, we should last forever  
And hold all the plans we have made  
But, baby, what lasts forever?  
We've noticed that something has changedRainbow party, rainbow clock  
I lost my hope and my hope lost my heart  
Rainbow party, rainbow clock  
I can't handle it, can't breathe, that's allYour lips still tremble as I try to find the key  
That opened our real paradise  
And left us here, locked outsideWe lose our minds when we  
Think it's not possible to win  
But when we take control  
We realize it gets better
