

Feed Us

Najwa

They spend a long time talking
With their stupid wooden tone
And it seems we can hear
We just couldn't turn it off They were lurking so close
To our fantasy
Turning our dream
Into a little bean This is the ultimate joke
Before we bite the hand that feed us
This is the ultimate joke
Before we bite the hand that feed us We have to keep on laughing
Beside the sleeping dog
We gotta wake it up
We gotta make it bark So draw the line again
To keep the secret safe
And hit the ground in pain
To bust the joker face This is the ultimate joke
Before we bite the hand that feed us
This is the ultimate joke
Before we bite the hand that feed us Feed us, feed us, feed us
Feed us, motherfuckers
Feed us, feed us, feed us
Feed us, motherfuckers As we approach the bullet
We feel untouchable
This isolated spot
It doesn't lead us home
We draw the line in pain
To keep the secret safe
Just need another face
To hit the ground again This is the ultimate joke
Before we bite the hand that feed us
This is the ultimate joke
Before we bite the hand that feed us Feed us, feed us, feed us
Feed us, motherfuckers
Feed us, feed us, feed us
Feed us, motherfuckers
