

The Formula

Russ

[Hook x2: Russ]

When I roll up

I ain't gotta say too much I'm good (I'm good)

When I roll up

Better act the way you fuckin should (You should)

[Verse 1: Russ]

If only you could see me now

You would wanna press rewind

Everybody is a star

Some just don't know how to shine

I've been DIY forreal

I've been making myself hot

Women throw themselves at me

All your girlfriends getting caught

I just take it as it comes

Gettin bigger by the day

I just focus on the signs

You should probably do the same

Ain't no telling when I'm popping

But I know it's coming soon

You can feel it in the air

When I step into the room

[Hook x2: Russ]

When I roll up

I ain't gotta say too much I'm good (I'm good)

When I roll up

Better act the way you fuckin should (You should)

[Verse 2: Russ]

I've been wrapped up in myself

I've been living like a mummy

Self belief unlocked the door

On the other side is money

I believed and got it crackin

I ain't need to see it happen

Making something outta nothing

You could say I'm doing magic

I might lose myself in this

But I'll always be a winner

Feeling stronger than this Gin

This is something for your liver

Confidence mixed with ambition

Everything will fall in place
What I think about I bring about
I never have to chase[Hook x2: Russ]
When I roll up
I ain't gotta say too much I'm good (I'm good)
When I roll up
Better act the way you fuckin should (You should)
