In the Army Now

Joyce Manor

Here we are in the army now
Sunflower on a place mat - that one's yours
Look good in the photograph
Cause we're in the army nowWhere were you when you felt left out?
It's all shit for families anyway
Look good in the uniform
Look good holding a gunFurniture store
Shards of glass
I wanna kiss you through your hockey mask
Cause we're in the army nowIn the army now
I always knew you'd leave me someday
I always knew you'd have to go
I always knew you'd join the army
