

Remote Control

[Phil Manzanera](#)

If you want to know a secret, most people are that bad
Compassion leads to many lies and trying to apply it will just drive you mad...
It's only destiny calling with the usual show
Get out while you've got time, make up your heart and find the kind of folk who really love You want to know
how to tell them apart
You want to know how to feel in your heart Too bad for you that they don't do a five day course in caring you
could play the part
You're still searching for the ones who were near
You're still itching for that great panacea
But first you got to be alone and think what kept your friends contented all those years
Something about their eyes I thought you could tell by now
Remote control, Get off and jump now
Remote control, pull out the wires
Remote control, Get off and jump now
Remote control, pull out the wires
Want to know a secret, most people are that bad Compassion leads to many lies and trying to apply it will just
drive you mad
It's only destiny calling with the usual show
Get out while you've got time, make up your heart and find the kind of folk who really love
If you want to know how to tell them apart
You want to know how to feel in your heart Too bad for you that they don't do a five day course in caring you
could play the part
You're still searching for the ones who were near
You're still itching for that great panacea
But first you got to be alone and think what kept your friends contented all those years
Something about their eyes, I thought you could tell by now Remote control, Get off and jump now
Remote control, pull out the wires
Remote control, Get off and jump now
Remote control, pull out the wires
Remote control
Remote control
Remote control
Remote control
Remote control
Remote control . .
