# In the Night

## Curbside

And where we live is where we hide
'Cause we can't forgive what's inside
We have sweet love (we have sweet love)
We have sweet love (we have sweet love)
Chorus:
In the night
Voices will fight
Voices of shadows and the runaways
Running from love
And every sorrow left behind
And when we wake up
It's already dark

And I touch your face,
I feel your heart
We have sweet love (we have sweet love)
We have sweet love (we have sweet love)
Chorus: (4x)
In the night
Voices will fight
Voices of shadows and the runaways
Running from love
And every sorrow left behind
