

# Under the Influence of Love (Early Version)

**Buck Owens**

She knew I knew that she was out to get me  
But I just close my eyes and let it be  
Now she walks by me like she never met me  
I didn't even make a memory For I was under the influence of love  
I wonder now what I was thinking of  
Yes I was so in love I let her  
Hurtin' me though I knew better  
Under the influence of love Why did I let her do me like she done me  
Why can't I get that woman off my mind  
Although I know she never truly loved me  
I wish she break my heart just one time For I was under the influence of love  
I wonder now what I was thinking of  
Yes I was so in love I let her  
Hurtin' me though I knew better  
Under the influence of love
