

This Love

Glenn Lewis

I have cried all night
Trying to make it better
I recognize my pain
Things are getting harder
For us, to be in this love

And my tears wash away my smile
And I'm drowning in my sorrow
There's no hope for today
I can't see my tomorrow
'Cause we are no longer in love

This love, your love, my love
It used to be our love (3Xs)

I've been blazed all day
Dreading confrontation
I've waited until now
For this conversation...
To take place
That we're time, with this love
I tried to be nice
Don't want you to be a hater
We've had our beautiful sons
Said we gotta be one soon or later
Cause they got so much more than this is love.

This love, your love, my love
It used to be our love (3Xs)

Used to be our love
Your's and my love Oh

Can-we-still-be
Can we still be friends
It will all end in tears
If we decide to leave or stay
I'm confused, I
Can't go this way

I just can't go on, on this way

This love, your love, my love
It used to be our love (3Xs)

What happen to our love baby

No we gotta think about our sons
Cause I know its over babe
Know its over baby
