

Where Would I Be?

Cake

I've been waiting for so long
I've been hoping your love's not gone
Houses are sliding in the mud
Rivers are raging in your blood
Where would I be without your love?
Where would I be without your arms around me?
You were to be the only one

If I knew you I would not run
You have been cloudy, distant, dark
I'm thinking of Noah and the Ark
Where would I be without your love?
Where would I be without your arms around me?
Where would I be without your love?
Where would I be without your arms around me?
