# All Aboard

## Yelawolf

-Hook
Some people run from some people who wanna save 'em
Some people got guns some people you wanna stay from
When the train rode in why did all my friends turned around and said goodbye?
Cuz some people don't know they standing at the station...
-1st verse
Come on in, I'm making room for you, her, and him
Also for those, we, them, and they,
