

# Selective Memory

## We Are Scientists

I'm wakin' up past noon  
I'm never really sure what day it is  
I'm wishin' I was you  
I'm wishin' I was anybody else I'm buried underneath  
These opportunities  
Selective memories  
well I'll bet you forget about me I'm tired of all the pain  
I'm tired of the problems that I've caused  
I'm tired of all the pains  
I should've gone instead of stayin' home I'm buried underneath  
These opportunities  
Selective memories  
well I'll bet you forget about me Well if there was a problem I can solve I just forget about it  
I've always had everything I wanted and never doubted  
Then I'd simply have my cake and eat it too  
But lately something tells me I've been fooled  
well I'll bet you forget about me I'm buried underneath  
These opportunities  
Selective memories  
well I'll bet you forget about me I'm buried underneath  
These opportunities  
Selective memories  
well I'll bet you forget about me I'll bet you forget about me x4
