

# Get Over Yourself

## SHeDAISY

You say you're gun-shy  
I say you're spineless  
You think you're pensive  
I think you're mindless  
Such a busy little drone  
That your heart beats in monotone  
So loud you can't hear me  
Repetition's what you need

[Chorus]

Get out of my head, get off of my cloud  
Get out of my hair, get off of my couch  
Get off of my lips, get out of my life  
Let me give you a tip, get out of my sight  
Get off of your knees, get out of my face  
Get out of my sleep, get out of my space  
How long do I have to show and tell, scream and yell  
Get over yourself

You say you're complicated  
I say too dramatic  
You think I underrate you  
I think I've finally had it  
With you never having time  
'Cause half the time you spend  
Designing brilliant tragedies  
And it's becoming your disease

[Chorus]

Won't let you unnerve me  
Won't let you deserve me  
And even if I kiss the dirt you're gonna see  
How I don't hurt  
And I don't hurt

[Chorus: x2]

Hey, you  
Get over yourself
