Now Or Never

Zebrahead

You got to go Loco, this ain't no joke yo
Too much hype on the television and radio
What you wanna buy, and what you wanna be
'Cause what you want is right there on the TV screen
And you be down with what they sellin', MTV got everybody yellin'
Get off, get off on it, get off, what you want when you want it
Get off, get off on it, get off, whatcha want, whatcha want
Runnin', runnin', runnin' through my head
They tell you it was good forever but I know it's now or never
Runnin', runnin', runnin' through my head
They tell you it was good forever but I know it's now or never
Forever, forever, forever, forever, forever, forever
These times are tryin', kid I ain't lying
Everyone's got something to sell and you're buying
What you wanna look like, what you wanna be
What you want is right on the TV screen
You be down with what they sellin', MTV got everybody yellin'
Get off, get off on it, get off, what you want when you want it
Get off, get off on it, get off, whatcha want, whatcha want
Runnin', runnin', runnin' through my head
They tell you it was good forever but I know it's now or never
Runnin', runnin', runnin' through my head
They tell you it was good forever but I know it's now or never
Take away from me, away from me, yeah
Take away from me, away from me, yeah
Take away from me, away from me, yeah
Take away from me, away from me
Get off, get off on it, get off what you want when you want it
Get off, get off on it, get off whatcha want, whatcha want, whatcha want
Runnin', runnin', runnin' through my head
They tell you it was good forever but I know it's now or never
Runnin', runnin', runnin' through my head
They tell you it was good forever but I know it's now or never
Runnin', runnin', runnin' through my head
Runnin', runnin', runnin', runnin', runnin'
Runnin', runnin', runnin', runnin' through my head
Runnin', runnin', runnin', runnin', runnin', runnin'
Take away from me, away from me, yeah
Take away from me, away from me, yeah

Take away from me, away from me, yeah
Take away from me, away from me
