Severing Flesh

Grave

Peeling your flesh away sever it from your bones
Seperating your head from your body then revel in your blood
Maiming your mangled corpse Tearing your skin apart
Incinerate your remains while ripping out your heart
Flesh - Cadaver - Blood
Severing flesh Severing fleshShattered human remains buried in the mud
Bodies bloodstained have begun to rot
Dying victims moaning choking by their blood
Silent is the mourning from those which god forgot
Flesh - Cadaver - BloodFlesh has rottrd eyes are taken away
Kneecaps broken arms are gone in decay
Try to moan but your tongue is removed
Body is rotting in the pool of bloodPeeling your flesh away sever it from your bones
Seperating your head from your body then fuck you in the wounds
Flesh - Cadaver - Blood
Severing flesh Severing flesh
