

Mud In Your Eye

Les Fleur de Lys

Girl, you're driving me mad
You're making me sad
You're treating me bad
Soon, the teardrops will start
And we'll be apart
Now isn't that sad

While you're running around
My life's going down
And now the future's looking dim

While you're running around
My life's going down
And now the future's looking dim

Girl, you're driving me mad
You're making me sad
You're treating me bad
Soon, the teardrops will start
And we'll be apart
Now isn't that sad
