

Window to My Heart (George Acosta Edit)

Jon Secada

Alone in the dark
Waiting for the sunrise
Feeling wide awake
Pretending you're there with me
Don't wanna close my eyes
Because I wanna keep believing
That we can be together
As far as I can see
I know you feel the same

Give us the chance to make it
Through your eyes there's a window that goes to my heart
I can see me still loving you the rest of my life
Look inside, look inside through the window that goes to my heart
Stay with me tonight
I promise you one thing girl
No matter, come what may
I'll always be here for you
And if you believe in me
I know that I can be
Everything that you need
As far as I can see
I know you feel the same

Give us a chance to make it
Through your eyes there's a window that goes to my heart
I can see me still loving you the rest of my life
Look inside, look inside through the window that goes to my heart
You're the only one who's light has ever
made it through
And I've been waiting for so long for somebody like you
Look inside, look inside through the window that goes to my heart
No I don't care how long I have to wait
If it means that you'll stay
Through your eyes I always feel the truth
Make no mistake

Give us a chance to make it
Look inside, look inside through the window that goes to my heart
Through your eyes there's a window that goes to my heart
I can see me still loving you the rest of my life
Look inside, look inside through the window that goes to my heart
You're the only one who's light has made it
through
And I've been waiting for so long for somebody like you
Look inside, look inside through the window that goes to my heart
Through your eyes there's a window that
goes to my heart
I can see me still loving you the rest of my life

Look inside, look inside through the window that goes to my heart
