

Walk The Way You Talk

Dionne Farris

Just because you said things have got to change
They won't go away
Nothing goes away
Not unless you do the things you promised to
So walk the way you talk and talk the way you walk
Saying something is wrong isn't good enough
That won't make it right
Gotta make it right
and the only way is doing what you say
So walk the way you talk, talk the way you walk
there's nothing that's so bad that leaving it alone just doesn't make it worse
time won't wait
Maybe tomorrow it maybe too late
don't just stand alone on a mountain top
Join the world today
Do it right away
Don't you know that you only what you do
So walk the way you talk and talk the way you walk
La la la la la x3
