

War Paint

Madeline Merlo

its okay to not be okay
when even the air you breathe
is just too much for your lungs to take
and all the words that you dont say
I hear your SOS on the radio
as you're driving away
c'mon pick up your phone
dont have to face it alone
im gunna fight with you and for you
yeah i want you to know
I will stand your ground
ill kiss your battle scars
And leave my XO mark till you can feel it
can ya feel it?
You can call my name
Ill hold your hand grenade
keep all your secrets safe 'til you can see me
can you see me coming?
running for ya dead of night
can you hear me? Hola you're alright
ill take your fears and wipe your eyes and wear it all like war paint
wear it all like war paint, wear it all like war paint
I see gold, when you're black and blue
I love the colours burning beautiful that you wanna use
when all you want is to get out alive
you dont have to cry for me to hear
your battle cry
c'mon turn on your light
I've been waiting all night
to fight with you and for you
when all your flags are white I will stand your ground
ill kiss your battle scars
And leave my XO mark till you can feel it
can ya feel it?
You can call my name
I'll hold your hand grenade
keep all your secrets safe 'til you can see me
can you see me coming?
running for ya dead of night

can you hear me? Holla you're alright
I'll take your fears and wipe your eyes and wear it all like war paint
wear it all like war paint, wear it all like war paint
wear it all like war paint, wear it all like war paintrepeat
