

Sparks From Candy

Jackyl

One drop dead, shakey leg on the floor
Not it, I love to see you quiver
Atomic, nymphonic
You want it heavy baby, I weigh a tonBlack light, poster love
Show me your velvet Elvis swirl
Elvis girl, spank love in a gentle way
All the way, all the way, all the waySparks from candy, a butterfly in a jar
I smell danger
How can it melt in your mouth
I don't understand unless it melts in your handA payday in a big way
Don't stop until it spills on the floor
A roller coaster car gonna jump off the track
You're it, I love to see your quiverBlack light shine from above
Show me your double dippin' delight
Out of sight, spank love in a gentle way
I feel you breathe, I feel you breathe, I feel you breatheSparks from candy, a butterfly in a jar
I smell danger
How can it melt in your mouth
I don't understand unless it melts in your handHand me a double dose
No need to fudge, I'm gonna die from it
If decadence don't give me the nudge
And I can't stop to see why we don't start tonightOne drop dead shakey leg on the floor
You're itSparks from candy, a butterfly in a jar
I smell danger
How can it melt in your mouth
I don't understand unless it melts in your hand
