

Till Death Do Us Part

Danny Vera

Yeah, I'll sing this tonight
You're everything that I want
Got my head and hopes high,
Got my heart in my hand
Yes, I'm gonna do this right You're the reason for living
I've got reasons to smile
Tonight it will start
I will give you my heart
Until death do us part Chorus:
Until death do us part
I will love you for always Forever and ever
We won't be far apart,
Until death do us part You're so pretty tonight
You are what men dream of
Got your head and hopes high
Got your heart in your hand
We're gonna do this right We'll probably end up crying
While we've got reasons to smile
Tonight it will start
You will give me your heart
Until death do us part Chorus Chorus
