# Judge Me

## Sia

Judge me feel free
Cause the freer you feel
The freer you'll let me beIt's such a terrible terrible shame
You keep on judging me, in his name
You're so quick to shift the focus
Cause you can find yourself
In today's frame
But I know he's approve
And I've nothing to prove to you
He smiles down on me lovinglyJust me feel free
Cause the freer you feel
The freer you'll let me beIt's truly sad to see
You suffering so immensely
You need distracting
So you use me conveniently
But I know he'd approve
And I've nothing to prove to you
He smiles down on me lovingly
