N.E. Heart Break

New Edition

In store signing autographs at the mall
Next in line was a fly girl standing tall
Signed my name and said
"Give me a call baby ya know"The girl screamed and fainted panic on the floor
The body guard pulled us the back door
I never saw her anymore
It was an in-store heartbreakLive at five interview for Channel 2
Saw a cutie thought she was on the T. V. crew
She said after the show
(I'll be waiting for you)
CoolAfter the show she got into the car and what a scene
Her dad was the driver of the limousine
I didn't know she was only thirteen
It was a young girl heartbreakPeople think we don't get lonely
But we're far away from home
One minute 20,000 people
But then they go home, we're aloneIt's off to another city
Where everybody knows my name
But when I meet that perfect honey
Is it me she wants or is it my fameGirlies and groupies and parties all night
Is the life that can lead you to a N.E. heartbreak
From city to city our friends and our fans
They're the ones who can keep us from having N.E. heartbreakCenter stage N.E. was groovin'
The beat was hard
And the girlies were movin'
There she was third row center coolin'
She was coldLast note of the last song
House lights up they came on
When I looked she was gone
It was a 3rd row heartbreakPeople think our life is easy
'Cause they think we've got it made
But we're living under pressure
Just to be on topAnd to give the best that we can give you
And to never let you down
We'll keep strivin' for perfection
N.E. heartbreak is coming to your townBeware of N.E. heartbreak
Spreading fast and there's no cure
No need to run from heartache
It's gonna get you, get you for sureBeware of N.E. heartbreak

Spreading fast and there's no cure
No need to run from heartache
It's gonna get you, get you for sureBeware of N.E. heartbreak
Spreading fast and there's no cure
No need to run from heartache
It's gonna get you, get you for sureBeware of N.E. heartbreak
Spreading fast and there's no cure
No need to run from heartache
It's gonna get you, get you for sureBeware of N.E. heartbreak
Spreading fast and there's no cure
No need to run from heartache
It's gonna get you, get you for sureCalled up my girl and said, "Meet me on the tour"
I got a suite cold chillin' on the 50th floor
And I'll leave your ticket at the door
And baby don't forget the pumpsShe lost her backstage pass and the room key
Then got caught by hotel security
And I spent the whole night lonely
And it was a hotel heartbreak
