

Nuclear Seasons (Night Plane Remix)

Charli XCX

When you go please don't leave your love in the sun my heart would melt away

In the night with your twisted tongue when you drop the bomb I'm blown away

'Cause I, refuse to hide in the page of the story

I, come out the box I won't say I'm sorry We in the nuclear seasons, in the shelter I survived this road

We in the nuclear seasons, summer lovin' in the backseat gone Now I'm facing this on my own 'cause you

tasted the blast and it shook your bones

I'm a warrior all alone, in the field of lies, I won't go home

Cause I, didn't burn my skin in the blaze of glory

I, come out your hands I won't say I'm sorry We in the nuclear seasons, in the shelter I survived this road

We in the nuclear seasons, summer lovin' in the backseat gone We survived nuclear seasons

We survived nuclear seasons I can feel it, I can feel the fear

I can feel it, inside of her soul

Inside of the soul We in the nuclear seasons, in the shelter I survived this road

We in the nuclear seasons, summer lovin' in the backseat gone We survived nuclear seasons

We survived nuclear seasons

We survived nuclear seasons

We survived nuclear seasons
