

The Dream Is Always the Same

[Marilyn Martin](#)

Darling, darling, lovely boy
Tell me what we're headed for
Tomorrow we'll be oceans apart
I'll be flyin' high with half a heart
The dream is always the same
But we make our plans obligations
If I could you know that I'd stay
But we make the bed that we lie in
Maybe someday I'll have that house and garden
But for now the wheels just keep turnin'
I'll go Silently in the mornin'
With my dreams and demands for the day
The dream is always the same
But we make our plans obligations
If I could you know that I'd stay
But we make the bed that we lie in
Hold me, oh hold me
For one more night
let me feel you across the miles
The dream is always the same
But we make our plans obligations
If I could you know that I'd stay
But we make the bed that we lie in
The dream is always the same
But we make our plans obligations
If I could I'd stay, ooh darlin'
