Day I Met Marie

The Shadows

Imagine a still summer's day
When nothing is moving least of all me
I lay on my back in the hay
The warm sun was soothing
It made me feel good the day I met MarieThe sound of her whispered, "Hello"
Came tiptoeing softly into my head
I opened my eyes kinda slow
And there she was smiling
It made me feel good the day I met MarieWith laughing eyes
She'd toss her hair and tantalize
She came to touch me then she's gone
Like a summer breezeI remember her kiss so soft on my brow
And the way that she said
"Baby go to sleep now
Baby go to sleep now"I woke with the chill in the air
The warm sun no longer hung in the sky
I reached out but she was not there
She'd gone where she came from
And I still feel good to think I've known MarieWith laughing eyes
She'd toss her hair and tantalize
She came to touch me then she's gone
Like a summer breezeShe came to touch me then she's gone
Like a summer breeze
