

Come a Little Closer

Brandy

I know that it's late, and maybe I shouldn't be so into you
It's just that tonight, I am so taken I'm fallen for you
When I look in your eyes, I can see a million possibilities
And I know you'll be leaving me soon, but tonight Come a little bit closer, let me hold you baby
I will be good to you, and we can try
To forget tomorrow, make it last forever, tonight So if you must go, know that I'll be missing you wishing you
closer
So let's make the most of these moments together we'll never forget
And it's breaking my heart because I know
That tomorrow you'll be miles away
And I catch myself wanting so much more, tonight come closer Come a little bit closer, let me hold you baby
I will be good to you, and we can try
To forget tomorrow, make it last forever, tonight So if you're leaving me now, baby I don't know how
I will never get over you, because you opened my eyes
To this love that's inside
Oh baby, baby, don't ever leave me Come a little bit closer, let me hold you baby
I will be good to you, and we can try
To forget tomorrow, make it last forever, tonight Come a little bit closer, let me hold you baby
I will be good to you, and we can try
To forget tomorrow, make it last forever, tonight Come a little bit closer, let me hold you baby
I will be good to you, and we can try
To forget tomorrow, make it last forever, tonight Come a little bit closer, let me hold you baby
I will be good to you, and we can try
To forget tomorrow, make it last forever, tonight
