

# Bleed and Blister (New)

## Moneen

You said you'll dream, you wanna be  
You still can't bring yourself to try, you want to die  
And you want more of these things to help them  
Set all these people you once had  
While they watch you, they're haunting you Go on kid, don't let them stop you  
The door's still locked but I'm here listening You said you'll dream you wanna be  
And you won't try  
You try you'll fail you'll wanna see  
How you'll never be Wait but you won't try  
Wait but you won't die I can't take this any further  
You got some suggestions? I'm listening  
Is this speaking loud?  
We must whisper they might hear Well just rip off all there ears  
And stab there eyes out  
While there not watching Go on kid, don't let them stop you  
(Don't let them stop you)  
We'll bust this door down then they'll listen I'm weak, I'm numb, I wanna be  
But I won't try  
I tried, I failed, I wanna see  
How I'll never be Wait but I won't try  
Wait but I won't die I'm strong, I'm where I wanna be  
But I won't try  
They'll try, they'll fail, they'll wanna see  
How they'll hurt me Wait but I won't try  
Wait, wait, no, I don't wanna die
