

Liquid Personality

Faktion

Two more and I'm on my way to my liquid personality

I'll turn into a clown

No one can bring me down

Who wants to get liquefied

Scream, lets get unified

Let loose, we are justified

Now, it's time to unwind

Chorus:

Hey look it's my liquid personality

I just can't control myself

My inhibitions have all gone sailing

So, lets have another round

I've had a few and it's safe to say

that I've finally breeched reality

I'm 10 feet off the ground

No one can bring me down

Who wants to get liquefied

Scream, lets get unified

Let loose, we are justified

Now, it's time to unwind

Repeat Chorus

We're lying down though we're spinning around

This feeling is out of control

Let's get up cause we're liquefied

It's ok we're unified

We need to have just one more round

Repeat Chorus
