

# Changing Every Day

## Culture Club

Someone says, wake up child  
Don't throw your life away  
See you in the crime file  
What will your mama say? Sometimes you get angry  
No focus on your life  
When people get hungry  
They learn how to survive Changing every day  
(Changing every day)  
Changing every day  
I said we're changing every day  
(Changing every day)  
Changing every day Summer syncopation  
The space between your eyes  
Is a place for heroes  
That never compromise Sometimes you feel lonely  
No focus or surprise  
Pushed into production  
What a way to live our lives Changing every day  
(Changing every day)  
Changing every day  
I said we're changing every day  
(Changing every day)  
Changing every day Changing every day  
(Changing every day)  
Changing every day  
I said we're changing every day  
(Changing every day)  
Changing every day Changing every day  
Changing every day  
Changing every day  
Changing every day Changing every day  
Changing every day  
Changing every day  
Changing every day Changing every day  
Changing every day  
Changing every day  
Changing every day
