

# I Love This Road

## Emerson Drive

Well there's a long long stretch of highway

Here in front of me

It just seems to keep on winding

As far as I can see

Sometimes these wrong turns are sweet mysteries

Sometimes they take us where we were meant to be[Chorus]

I love this feeling of freedom running through my veins

Been too long at the crossroads waiting for the light to change

Even if it takes forever and I never find out where it goes

Heaven knows

I love this road

I love this road Well these days become a lifetime

It happens way too fast

And you miss what's round the corner

If you just keep looking back

Sometimes it feels like you can't find your way

Sometimes all you have to go on is faith[Repeat Chorus] Wind at my back and the sun on my shoulders

Pushing me moving me a little bit closer

Sometime a little trust is just enough to take you there[Repeat Chorus]
