

# Fade Away

Morgan Page

Whoa, whoa  
Midnight falls  
But darkness seems the same  
The blinding lights are all alone  
Crowded thoughts surrounds my past  
Shadows lead me back home  
Fade away  
Even when you fall asleep at night  
Dreams will calm your soul  
Iâ€™ll be out there on the boulevard  
Watching faces  
(fade away)  
I need a bit of focus  
(fade away)  
I need a bit of focus  
(whoa, whoa)  
I need a bit of focus  
(fade away)  
I need a bit of focus  
Itâ€™s all we lack  
Its leading to its own time  
Whoa,whoa  
Iâ€™ve been waiting so let meâ€™  
  
Iâ€™m alone  
In your way  
Do you think you need to care?  
I know you so well itâ€™s easy  
You leave it anywhere  
Even when you fall asleep at night  
Dreams will calm your soul  
Wishes that you still keep burning bright  
How youâ€™re working to get it go  
I need a bit of focus  
(Fade away)  
I need a bit of focus  
(Whoa, whoa)  
I need a bit of focus  
(Fade away)

I need a bit of focus

Itâ€™s all we lack

Fade a

Fade away

Whoa, whoa

Wellâ€

Whoa, whoa

I donâ€™t know when you let me down

Fade away

Whoa, let me down

Fade away

I donâ€™t know when you let me down

Wellâ€

---
