Show Me the Right Way

Sash!

Show me the right way
Show me the right way
Show me the right way
Show me the right wayWalking my way on an endless street
Confused and blinded by a light
On me are spots and a million cars
The night shows only black and whiteHave I been there before? Im running in circles
Is it real or is it just a dream?
I just want to wake up soon
Or will this nightmare ever end?Show me the right way
Show me the right way
Show me the right way
Show me the right wayShow me the right way
Show me the right way
Show me the right way
Show me the right wayWalking my way on an endless street
Confused and blinded by a light
On me are spots and a million cars
The night shows only black and whiteHave I been there before? Im running in circles
Is it real or is it just a dream?
I just want to wake up soon
Or will this nightmare ever end?Show me the right way
Show me the right way
