

Shadow Of Your Love

The 69 Eyes

Ride on Ride on a white horse
Northern man
Under the bluest skies
Reflection in your eyes Got no fear
Wisdom on your side
Still you gotta ride
Like for the last day of your life Out of darkness I command
This desolation land
Eclipse shines above
Like a shadow of your love Talk to the mountain
Talk to the moon
Tell all the children
Freedom rides with you African sunset
World without end
When you feel like hunted
Death looks like a friend Out of darkness I command
This desolation land
Eclipse shines above
Like a shadow of your love Shadow of your love
Shadow of your love
Shadow of your love Out of darkness I command
This desolation land
Eclipse shines above
Like a shadow of your love Out of darkness I command
This desolation land
Eclipse shines above
Like a shadow of your love Shadow of your love
Shadow of your love
Shadow of your love
