

# One Dream

[Sarah McLachlan](#)

We can feel a change is coming  
Like a kiss upon the tide  
Breathing life into every heart  
A hope for kinder times  
Cause we have walked this road together  
Though at times we felt alone  
In the struggle to lift us up  
We find a strength I've yet to find  
You carry your courage, carry the history  
Of all who have gone before you  
Wherever you come from  
You're born of the one dream that finds you, standing here  
And you know that you can make it  
(you can make it)  
You've got the whole world in your hands  
(whole world in your hands)  
And you've spent a lifetime working for this moment  
(working for this moment)  
And you are shining  
You're all that you wanted to be  
When you're airborne and free  
At peace with gravity  
High above everyone can see  
The spirit of human ecology  
How your flame keeps burning  
When you leave all doubt behind  
It's a giant leap for mankind  
At peace we all shine  
You carry your courage, carry the history  
Of all you have gone before you  
Wherever you come from  
You're born of the one dream that finds you, standing here  
And you know that you can make it  
(you can make it)  
You've got the whole world in your hands  
(whole world in your hands)  
Cause you've spent your lifetime working for this moment  
(you are shining)  
And you are shining  
(you are shining)  
You are all that you wanted to be  
(you are shining)  
And you are shining  
You're all that you wanted to be
