

Modern Art

Matthew Sweet

Kept a little piece so I won't forget you
Abstract like the world around you You make a modern art
From your head, for your heart
You put on display, there's no cure Ready to be deconstructed
Abstract like the world around me
Ready to be deconstructed
Abstract like the world around me You make a modern art
From your head, for your heart
You put on display, there's no cure
There's no cure today Angels in black, angels in black
Angels in black, angels in black Kept a little piece so I won't forget you
Abstract like the world around you
Abstract like the world around me You make a modern art
From your head, for your heart
You put on display, there's no cure today
