

# Can You Understand

## Renaissance

Dollars down the penny drain  
Frozen in the clouds  
Dream away the last of pain  
In waterfalls of sounds Float across the icy pools  
Leaves with curl and sway  
Now your mind is floating cool  
And you can find the way Can you understand? You can really understand  
When the darkness comes, you still shine  
Open up your eyes and make the day shine sunshine now  
Open up your dreams and and make the way shine sunshine now  
Can you understand? Do you understand?  
Can you understand? Do you understand? Open up your life and make your lifetime sunshine now  
Open up your soul and make your lifeline sunshine now  
Can you understand? Do you understand?  
Can you understand? Do you understand? Dancing without moving now  
Growing with your soul  
One with all around you now  
Related to the all Purple mist around your hair  
Eyes are fading blue  
Smiling into everywhere  
Love is coming through
