

# Ugly

## Lifer

No use running I see you there  
No use hiding or lying  
I'm becoming you  
I'll be all that I'll be beautiful  
Pitiful, beautifully pitiful  
Look at yourself  
What do you see now?  
Ugly somehow  
I am ugly, you are ugly  
We're all ugly in the mirror  
Clear day, sunny day  
Now cloudy day, good day  
My pain lasting too long  
But I love what I've become beautiful  
Pitiful, beautifully pitiful  
Look at yourself  
What do you see now?  
Ugly somehow  
I am ugly, you are ugly  
We're all ugly in the mirror

I'm not mentioning any names  
(I'm not)  
I'm not mentioning any names  
(I'm not)  
I'm not mentioning any names  
(I'm not)  
I'm not mentioning any names  
Look at yourself  
What do you see now?  
Ugly somehow  
I am ugly, you are ugly  
We're all ugly in the mirror  
I am ugly  
(I am)  
You are ugly  
(You are)  
We're all ugly  
(We're all)

In the mirror  
(In the)
