Natural

Okay

You know why I am here, you know,
I glow when you are near, I glow,
I'm taking more than I deserve,
Because everyone has left me,
And I'm leaving more than I deserve,
Because I have gone too far now,
I know,

Forgive me, I promise I will change,
For everyone around me,
Believe me I will not let you down,
Because I've got nothing left here,
You know why, you know why,
I glow now, you know why,
I glow when your near me, you know,
Lies rise, let me go, dead in my head
