

# A Moment

## We Came As Romans

All the lies don't hold me,  
But they're sinking in my skin,  
Coursing through my veins  
And the truth eludes me,  
Losing sight of it again  
Save me from myself Close my eyes, see my life Have I lost my way?  
I hope this is the last time  
Am I here to stay?  
Nowhere left to hide There's always a way to find the reason in a moment  
Yeah, moment, yeah moment  
To find the reason in a moment  
Yeah, moment, yeah moment  
To find a reason There is truth inside me  
But it feels out of reach  
Will it come to me?  
And you'll walk beside me  
I'll see things that you see  
Will you wait for me? Close my eyes, see my life Have I lost my way?  
I hope this is the last time  
Am I here to stay?  
Nowhere left to hide There's always a way  
To find a reason! Save your future for me  
Save your time  
Save your future for me  
Save my life, save my life Save your future for me  
Save your time  
Save your future for me  
Save my life, save my life Close my eyes, see my life  
Close my eyes, see my life Have I lost my way?  
I hope this is the last time  
Am I here to stay?  
Nowhere left to hide There's always a way to find the reason in a moment  
Yeah, moment, yeah moment  
To find the reason in a moment  
Yeah, moment, yeah moment  
To find the reason in a moment  
Yeah, moment, yeah moment  
To find the reason in a moment  
Yeah, moment, yeah moment

To find a reason!
