Don't Make Me Try

Spector

You're lying in your bedroom in my mind,
and he's probably switching off the light,
I miss you!
These emails I draft but never send,
Works of art you couldn't comprehend,
I miss you!Don't make me try,
Don't make me try,
Don't make me try!
Not in front of them,
Not in front of them,
Not in front of them!Your flat is only half a mile away,
I mean every single word I didn't say,
I miss you!
This city is always heavy on my mind,
I'd steal the Chevy in the parking way outside,
I love you!Don't make me try,
Don't make me try,
Don't make me try!
Not in front of them,
Not in front of them,
Not in front of them!
