The Way

Bonnie 'Prince' Billy

Winter comes and snow
I can't marry you, you know
Without children to grow
I can't marry you, you knowLove me the way I love you
Love me the way I love youTake a year in your hands
You can find another man
Let your unloved parts get loved
I will be your manLove me the way I love you
Love me the way I love youPlaces you should be afraid
Into the river we will wadeLove me the way I love you
Love me the way I love you
