

I Feel for You

AZ

Sketch it Witness the relentless, the manhunt is tensing
The Tek left behind was printless
Narcs and Homicide, Feds and armoured rides
Hell se-la-cia, I'm vest up, armed to die
Forever will, Glock shots, shoots to kill
So what the deal; violate, feel the steel
The cleverest, so whoever slips
I'm roaming and holding, terrorists born with this, getting on with this
Making moves while you fake moves, you and your fronting crews
Dressed pawning jewels, living in 6-2's
But now it's on, the end justifies the means
Lye smoke and cream, is all I fiend
It's in my genes, I float through the streets and seen
In a tinted European and 50 coupe, it's green
Nothing in between, me and my team, we ill too
Respects due, oh I feel for you We got this locked now, pure official, white crystal
The hype'll get you before the snipe from the pistol
It's potent, just one whiff'll have you floating
Hot and soaking, while I'm sellin y'all's is smoking
Forever shining, but strictly thru diamond's prominent
And dining with wealthy, old dime bitches rich as from cosignin
And Gold and American, Visa Charge-card, hold while I'm rolling
Affiliated with hoes that is just boning
So knowledge me, and analyse all of my qualities
You've crossed all apologies, my lifetime policy
Plus playing for keeps in these New York streets
It get deep, so hold heat, and try and control your sleep
Cause umm, the life I live is deeper than the Mississippi Rivers
Me and my niggas only drivin what a ride give us
Puffing lye, getting high til we die
So fuck it, whatever nigga try, violate and fry
