

unnatural

[goreshit](#)

Madness overwhelming
Excruciating pain
My brain aches for release
I will suffer until I kill Weapons have been gathered
Now I seek my prey
Senses heightened as I stalk Distorted means of pleasure
Taking human life
Uncontrolled obsession
Murder is my vice Aberrant compulsions
Kill for peace of mind
My consuming passion
Murderous appetite Ferociously attacking
Stabbing all I see
Blood is spraying on my face
Hands are punctured in defense Brutally dismembered
Parts are growing cold
A natural high achieved by death Perverted and twisted
Bizarre thoughts are my norm
It is my nature to murder
If I stop I know I will die
