ArtBeat lyrics

Verse1

Tell me have you seen the news lately
Brothers killing brothers
Sisters killing sisters
Its like a viscous circle
Everybody wants a piece of the pie
Royal rumble when we hustle this is do or die

Uhn...

Bread chasing, heart pacing, my mind racing
Hands deep! in the cookie jar
We Sacrifice a brother to save a sister is just another misguided individual you get the visual
Blame the system blame the system
Question the order of things
Even our good deeds are born out of a selfish means
Breathe, think before sink
This is quick sand you're standing on
Can't trust nobody Uhn...

Lies... the mouth of the unwise is suicide

Display of foolishness on every side

Get the money get the money you horny you want it you wanna have it you gotta have it what!....

Listen to the sound of my art beat

Smelly pockets overload

Cut corners we were told

Let's be honest

Cborus

E don tey

It's crazy

It's crazy out here

E don tey

E don tey

Verse2

Address the issue

Dress these issues with many colours I'm cautious as I take it to my people

Follow the script but I'm a misfit

I don't fit celebrate my individuality

I can't be found lost in the crowd

Walk in another man's footsteps I wonder how many now

Let the Artist take a bow

Honor to whom Honor is due

May the artist take a bow...

"Applause or sound of crowd in ovation".

The crowd painted the artist

The artist painted the crowd

Which came first the egg or the chicken

The artist is the art, a product of the system

Give the crowd the credit, the people painted the portrait, the portrait became a person.

The Person painted a portrait the portrait made an impression the people embrace the message.

Listen to the sound of my art beat
