

Blind Leading the Blind

Silent Force

He sees the two in the corner
Not easy to explain
What the other is thinking
You know it's always in vain Don't you know that when the other's wrong
Someone always tells them so And that it doesn't matter
What they're trying to say The blind leading the blind
No wonder nothing else gets done
They're in each other's way They always seem to be leaders
A political mess
When all the votes have been counted
Oh, there's one that's thumping his chest
Don't you know the winner walks away
The loser somehow gets to play The blind leading the blind
No wonder nothing else gets done
They're in each other's way
The blind leading the blind
There's a reason there's so many dead
They're dying everyday We all stand here
Opinions in our minds
They're tying up our hands
And cover up our eyes
We shake our heads dismayed
When they play that song
Then they drape the flag upon the caskets when they fall
The blind leading the blind
No wonder nothing else gets done
They're in each other's way
The blind leading the blind
There's a reason there's so many dead
They're dying everyday The blind leading the blind
It's no wonder nothing else gets done
They're in each other's
In each other's way
