It's Not Over

Dinner and a Suit

It stared as something small like a crack in the ice
Spread like a cancer till it threatened my life
But i cant forget what you said
Its like a bell that rings in my headIts not over no, its not over its not over were just getting startedI couldn't hear your voice over the sound in my home
So I ran just as far as I can go
but I realise now I was never really alone
I cant forget what you said
Its like a drums that beats in my chestIts not over no its not ooover its not over were just getting started
Its not over no its not ooover its not over were just getting started
Its not over no its not ooover its not over we are away big home
Its not over no its not ooover its not over were just getting started
Its not over no its not ooover its not over were just getting started
