

The Death of Me

Asking Alexandria

Am I insane?
I ask myself over and over again
Flies in my brain
Pouring out from the cracks in my skull
Am I alone?
Surrounded by sin
I think I might just be suffocating The devil came to take me to hell
But I'm already there. Am I insane?
Am I insane?
Am I insane? The devil came to take me to hell
But I'm already there. [Chorus]
I won't let you be the death of me
No I refuse to let you bring me down
Bring me down
I won't let you make me out to be
The one who's in the wrong
And I've lost my mind before
But now I'm back
And I'm better than ever. Am I insane?
I fold myself over
And screamed till I spit up blood
Flies in my brain
The itching is incomprehensible and it won't stop Am I alone?
The voices grow fainter but they just won't fucking go away The devil came to take me to hell
But I'm already there. Am I insane?
Am I insane?
Am I insane? Am I alone surrounded by death?
I think this might just be the end Am I insane?
Am I insane?
Am I insane? The devil came to take me to hell
But I'm already there. You can't take this away from me
You can't relieve these demons
You can't make this OK for me
You're the one who caused these feelings I apologize for what I'm about to do
I try to sympathize
But at the end of the day
You brought this on yourself [Chorus]
I won't let you be the death of me
No I refuse to let you bring me down

Bring me down
I won't let you make me out to be
The one who's in the wrong
And I've lost my mind before
But now I'm back
And I'm better than ever
Now I'm back
And I'm better than ever
The tears
Have left a blur
That I can't explain
The pain
Has left a hole
In which my heart should've been
I'm blind with rage
And I can't shake this feeling
Irrational
Impetuous
Intemperate
I'm blind with rage
And I can't shake this feeling
Irrational
Impetuous
Intemperate
I won't let you be the death of me
I refuse to let you bring me down
Bring me down
I won't let you make me out to be
The one who's in the wrong
And I lost my mind before
But I'm back and I'm better than ever
